## HOW TO USE THIS REPORT

In the pages which follow, you will see descriptions of your character traits, relationship potentials and challenges, as well as career potentials, and even more.

All or most of these sometimes intimate descriptions will be linked in some way with your past lives and your experiences in the planetary realms between lifetimes (the interlife).

Yet, you may ask, how can this information best be used?

First, **HELP YOURSELF**. The enclosed uplifting commentary can only be truly beneficial if you see it as a means of self-help and self-transformation. So to get the maximum practical benefit out of each page of this report, focus on connecting what you read with what is going on in your life now.

Next, **LOOK FOR PATTERNS**. When you see repeated references -- for instance to similar careers, pursuits or vocations -- you should consider these references seriously. They demonstrate a positive karmic connection which you now have with these same career-related potentials from past life endeavors. So, because of prior life success, these areas of expression should be easier for you to find rewarding or to succeed in, as compared with in other areas.

Also, pay close attention to **REMEDIAL MEASURES**. For instance, you may be given an affirmation to use in meditation (or a prayer). Or you may be given a crystal/gemstone to wear. These means of balancing out challenging vibrations can indeed be very helpful, especially if used in a hopeful manner.

Finally, this report is a synthesis of past life and planetary interlife interpretations originally given clairvoyantly by Edgar Cayce, for individuals with your same planetary patterns at birth. So in applying this report to your personal life, you should **RESPECT INNER GUIDANCE** --through dreams, meditation and past life regression for example -- as primary resources for this kind of information; and most important, **RESPECT YOUR FREE WILL!** You alone must choose and know what is really best for you.

Your birth chart interpretation is based on the positions of the planets at the time of your birth.

Astrologer Ry Redd calculated on computer the astrology charts for hundreds of people who received readings by Edgar Cayce which contained astrologically based information. By studying these astrology charts, Ry Redd determined what planetary influences were most likely responsible for the readings by Edgar Cayce. In many cases the astrological basis of the Cayce readings appears to be very straightforward. From this information Ry Redd was able to develop, in conjunction with the computer programmers at Cosmic Patterns Software, an analysis of your birth chart as Ry Redd believes that Edgar Cayce's psychic readings would have interpreted it. Ry Redd's research effort was exhaustive and was conducted over many years, some of which was spent at the Edgar Cayce library at the Association for Research and Enlightenment headquarters in Virginia Beach, Virginia.

Your Past Life Report begins on the following page . . .

*Your Sun is in an inharmonious pattern with Jupiter.*

Your afterlife experience in the realm of Jupiter brings you a helpfulness in getting along with those in powerful, prominent positions, especially in helping them to develop brotherly love in their actions. You have great abilities in your associations with such individuals in these ennobling directions. As long as you avoid tendencies toward false pride and taking any selfish advantage of your influential role, you should continue to bring harmony into the lives of others whom you contact.

You also have the capacity from Jupiter's experience of keeping balance and remaining tolerant while going through various turmoils about you. These challenges are most likely to have taken the form of antagonisms on a larger scale dealing with groups, organizations and institutions as well as individuals around you. These experiences have probably not been without anxiety for you nor has your judgment always been without exaggeration. However, your patience and capacity to forgive are the basis for your endurance of such animosity and unpredictable behavior on the part of others.

Your mental trends and self-expression will be in very definite, ambitious directions this lifetime. One result of your drive to make yourself felt is that you will be heard of from both far and near as a powerful soul with considerable broadness of vision. This drive can be a constructive expansion beneficial to others -- while contributing to your soul development -- or, it can be merely an expansion of your desire to gratify your own motives (the latter will most often take the form of extravagance and questionable judgment in finances).

As to which of these will prevail, the answer lies in what you do in applying your free will and your abilities to know what you have set as your ideal. Resources for ideals include reading English literature and history, along with inspiration from music. As remedial measures for this somewhat challenging pattern, the wearing of planetary gemstones about the body can be a helpful vibratory influence. Specifically recommended is either the turquoise blue or pigeon-blood ruby. [1143-2]

*Your Mercury is conjoined with Venus.*

You have high intellectual abilities together with a strong home loving and artistic temperament. You have a cautious, resolute and tenacious mind, reserved and self-controlled as far as feelings for others is concerned. You are interested in people, are a good conversationalist and companion, and a wholesome influence on most groups. Your entrance into groups or companionships with others is even more beneficial to them than to you. You would make an excellent creative writer or designer, being interested in all forms of the arts, especially music, color and form.

In fact, your intellectual, artistic abilities are very likely to be considerably above average. Therefore your potentials especially in the literary field are exceptional. Commercial applications of your mental abilities in law and advertising are also encouraged.

The love influence in its highest or noblest sense is primary for you. Were others to criticize you for allowing what they perceive as carnal love to be influencing you excessively --your experience of "love at first sight" for example -- you do little condemning in return. Although you and many others see the sacredness of such physical expressions, your love expressions are likely to be mostly on the level of speaking kindly and having generosity, a gentleness of manner and trueness of spirit. You are more likely to fall in love with a beautiful evening, and to find much wonder in the moon, the planets and stars. The beauty of nature, with its clouds, lightening, thunder and other natural voices are for you -- though maybe hard for others to understand - - an especially rewarding, stabilizing influence.

Attraction to and by the beautiful and handsome in the opposite sex will often influence you a great deal. If other past life indicators point to challenges in this area of your personal life, they are most likely to deal with the influences of passion, on both the mental and purely physical levels. That is, your feelings, desire, and sensation -- all elements of passion -- may at times be overactive, even impulsive. There is also some danger of jealousy and misplaced trust in love relationships. This may actually be due to a mild aversion of forming close relationships, because of past life associations needing self-healing in the present.

Moreover, it may often be difficult for you to hear from others, or yourself express through stories, jokes or the like, that which is considered coarse or crude. However, having considerable mental concentration powers as well as charm you can control and disguise your feelings when you feel the need. *Your Mars harmoniously aspects Uranus.*

Returning to the earth from an experience between lives in Uranus, you made a well timed choice en route to make an extended visit in the Mars dimension. Your resourceful soul flight plan is reflected in an harmonious geometric aspect pattern between these planets at your birth. This flowing aspect is therefore prominent in your birth chart and bestows upon you an energetic, courageous, highly individualistic and pioneering personality.

With your great strength and endurance you are able to bear much in the way of heavy physical energy demands upon your body.

Moreover, you are highly developed intuitively or clairvoyantly and mentally -- bordering on genius -- and have marked mechanical and scientific ability.

You also have considerable capacity for inventiveness in electronic technologies such as computers, in design, especially architecture, and use of electro-mechanical methods in the healing arts (hydrotherapy and electrical medicine are examples).

Your extraordinary diversity of talents include athletics, law and counseling as well.

Together with a love of adventure, excitement and exploration, these abilities and interests probably originated in past lives ranging from Atlantis (perhaps as a conqueror of new worlds in the Americas or early Egypt), to ancient Persia and colonial America. [234-1]

*Your Mars is in an inharmonious pattern with Neptune.*

In making your soul flight back to begin a new earth life, you chose a day when malefic Mars and mysterious Neptune, the realm of illusion, were in a challenging pattern. This choice of timing your return to earth life called up for you to meet certain challenges. For example, deception must be avoided at all costs, whether it be insincerity and lack of honesty with yourself or with others. These difficulties with deception will come mostly through other people, and are likely to be projections from your past which are opportunities for transformation, healing and forgiveness.

Also, misuse of psychic and spiritual forces in a past life requires redemption in the present. Another warning from this inharmonious aspect pattern is that any misuse or dependency on any form of drugs or alcohol will be very bad for you and should always be avoided.

Moreover, from your experience in its realm between lifetimes, Neptune, lord of illusion and delusion (as well as spirituality and idealism), at times tends to hide your militant nature, especially where your defense of

principles is involved. While you are frequently defending a principle or ideal, you may often be unable to define that ideal clearly with your associates at work or in personal relationships outside of your work.

Regardless of what others may think of you, and despite your own dissatisfaction with your behavior, you still present the image -- or illusion -- of self-assurance. Others, however, may misinterpret your self-confidence and good business sense, for instance, by feeling you use your friends at times excessively.

One result of this may be an added tendency to hold petty grudges against these same souls (who, attracted to you from past lives, are probably just as disillusioned with you as you are with them: hence the need to force yourself to use will power to bring your honesty concerning conviction in line with its application).

First, you could make a clear decision to eliminate altogether from your consciousness obsessions and oppressions such as the determination to "get even" with others. This you can do entirely on your own by giving positive suggestions to your inner, soul consciousness through self-hypnosis.

Through this basic psychological technique of subjugating your physical consciousness through auto-suggestion you can rid yourself of the need to show the power of your personality (which, you may feel, defends you against deception on the part of others). Having thus removed this determined attitude which has set you against others and at times has even made you soul-sick, you can proceed to seek your greater spiritual enlightenment this lifetime.

Toward this ultimate goal study higher spiritual values and ideals such as those found in the Hebrew and Christian faiths. From a combination of your self-suggestions and Scripture studies you can arouse yourself to the point of reclaiming your soul's purpose. You can then see within yourself a new determination, as did the Prodigal Son, who said "I will arise and go to the Father, God." Then you will experience grace and mercy, peace and harmony, instead of deception and disillusionment. [1978-1, 2660-1]

NOTE: The Zodiac signs of the Sun and Moon are analyzed below. First they will be analyzed in the Tropical zodiac. If the positions are different in the Sidereal zodiac, then they will also be analyzed in the Sidereal zodiac. Also, if the Sun and Moon are in the same zodiac sign, then only the Sun position is interpreted; the Moon position, being the same as the Sun position, does not need to be interpreted in this case.

*Your Sun is in Taurus (Tropical zodiac).*

Taurus' influence inclines you to be somewhat headstrong, with a very set and determined manner. Hence you are not always understood in everything you try to do, or in things which you know yourself to be true. Yet long-lasting are the influences you make on others with whom you have deep associations from previous lives.

Remember, success or accomplishment in life is not a matter of some great force or influence. Just as taught by the Master, it is not the power of the storm or of the earthquake or of great noises and the like. Rather it is the still small voice speaking from within you which becomes the influence through which movements of truly great forces really arise.

Since your childhood, being outdoors and living close to nature is probably more significant to you than to most others. This love of nature and the great outdoors is from one or more past lives spent on a farm or in nature settings. For ages countries on the Mediterranean such as ancient Egypt, Greece and virtually all of the ancient Mideast lived in close contact with nature. So did the Native Americans of pre-Columbian America. And surely you were one of them.

Farming, fishing and hunting then, are among your familiar pursuits (even if they only involve occasional outdoor activities like gardening, boating or indoors, tending flowers and plants). You also probably have greater confidence in holistic, natural healing approaches than in modern medicine's "advanced" yet artificial technology.

Now, Venus is the planet which rules or best symbolizes the essence of the sign Taurus. Of course, Venus symbolizes the female sex. Centuries ago in oriental cultures women were more feminine -- and experienced much more respect -- than today. A lifetime in Asia and lands like China, then, are also a likely part of your past life experiences.[1149-1, 1641-1]

*Your Moon is in Libra (Tropical zodiac).*

You may remember, in your deeper meditations and dreams, experiences from long ago when you were among great artists, sculptors, poets, and craftsmen of ancient India as well as the more recent leaders of prosperous, classical Greece. Even later day Venice, Florence and other Italian cities developed some of this love of culture, beauty and appreciation of art which you were closely involved with then and which you find rewarding still.

Venus is the planet of love, beauty and art, so it is very appropriate to convey the symbolic essence of the sign Libra, which it rules. Venus' influence through Libra also makes that which is crass and primitive quite unnatural for you to accept gracefully, or to participate in willingly.

You may also have been among many who reincarnated in the American South just before the Civil War. In the present you may have to learn the lesson of providing for your own needs, luxury and comfort rather than having others do provide these things for you. In fact, one of the challenges of Libra lies in being too liberal or indulgent with oneself. With prayerful application of your will, this too can be overcome. [303-31]

*Your Sun is in Aries (Sidereal zodiac).*

From Aries are found inclinations often to be considered by others as being headstrong. You may also be very hard to convince alongside judgments you have made which have been the determining factors in your experience. Yet once you are convinced of something, you become very determined in that particular direction.

This tendency toward self-determination and being headstrong is probably rooted in at least one lifetime in ancient Palestine. Your likely link with the tribal nomads known as the Hebrews is expressed in your urge either to be a powerful yet somewhat dogmatic leader or to be inclined to follow someone with strong leadership qualities.

Also, living in large or extended family units dominated by a strong director or leader (whether male or female), having special admiration for winners, or even being totally submissive to another person who you feel is somehow in charge of you and your life are characteristic inclinations from similar experiences long ago.

Of course, Mars is the primary planet which symbolizes or rules the sign of Aries. This makes Mars and martial urges of special significance to you this lifetime. Therefore, depending on whether or not you apply your

will, responding to conflict situations with directness and force are likely to be among your subconscious urges. These urges are from your prior experiences in the realm of Mars and from one or more past lives in the harsh, ancient desert culture of Israel and neighboring Arab lands.

Also from Mars, the Ram influence and this past lifetime in ancient Canaan and Palestine you may feel a need not only to be a leader or director but to excel in your career or in more physical endeavors like exercising or a competitive activities such as sports.[279-4, 340-15, 1804-1]

*Your Moon is in Virgo (Sidereal zodiac).*

As to the activities which are innate or outwardly manifested in your life, coming in the astronomical constellation of Virgo, at times you may have the appearance of being too self-sufficient in your relationships with others. Hence you may be considered somewhat eccentric, especially in your choice of associates and friendships.

There is also a likely tendency for you to approach life in a very rational way, resulting in your being considered by others as having a rather materialistic turn of mind. At the same time this also gives you the ability to train or direct the training of the minds of young people.

Long ago, one of your likely past lives was in an ideal nature setting, where you were known for your courage and for your ability to heal. From this distant lifetime you are less likely than most people to be dominated by others and you are usually inclined to carry your share of responsibilities. This experience may have been in South or Central America as a member of one of the native cultures in the Amazon forest of Brazil or the Aztec Indians of Mexico.

Mercury is the planet which rules or symbolizes the essence of the sign Virgo. Higher levels of learning and teaching, then, have been yours in these lifetimes, from successful interaction with nature to more religious pursuits like participating in the Holy Crusades to Palestine and neighboring lands. You may also have followed Alexander the Great on his history-making and Greek culture-expanding military excursions into Arabia and India. [365-3]

## Your Past Life Decanates

According to an ancient Vedic astrology method still practiced in India, Past Life Planets are realms in which you sojourned between earth lifetimes. They are identified through the position of your sidereal Sun and Moon in the decanates (a decanate is a one-third division of a zodiac sign; each is ruled by a planet). Any patterns involving these Past Life Planets are therefore of special importance. Pay extra attention, then, to any sections of your Report which interpret these planets.

NOTE: If your Sun and Moon are both located in a decanate which is ruled by the same planet, then only the Sun position is interpreted; the Moon's decanate position, being the same as the Sun's, therefore does not need to be interpreted.

### *Your Sun is in Aries Decanate*

Your sidereal Sun is in ARIES decanate, which is ruled by Mars. Mars as Past Life Planet points to an active, outdoor, courageous, passionate yet at times warlike nature.

Your exceptional will to survive and endure is built up from military-related lifetimes in the ancient Greco-Roman world or more recently (within the past century) in pioneering experiences in Great Britain/Europe, colonial Asia, Africa and/or the Americas.

### *Your Moon is in Taurus Decanate*

Your sidereal Moon is in TAURUS decanate, which is ruled by Venus. Venus as Past Life Planet points to high priorities in creativity, sociability and relationships, especially in your family/home life and in the world of nature. Urges toward these experiences and interests from your sojourn in the Venus dimension are likely to originate in parallel lifetimes of soul development through these areas of self-expression.

Especially indicated are lives in the early Jewish-Christian Church and later as an artist-musician in modern times, whether in the West (Europe and/or America), or in modern or colonial Asia.
